

QUEST FOR MONGOLIA

(Overland Adventure)

Date: June 10 – 24, 2026

TRIP SUMMARY

With a focus on history, nomadic heritage, flora and fauna and geography, this is one of our most comprehensive quests for discovering Mongolia. Our trip begins with a flight north to Lake Hovsgol, Mongolia's "mother ocean" which contains 1% of the world's fresh water. The lake is considered to be the headwater to Lake Baikal located not far away, in Siberia, and is one of the oldest lakes in the world. The journey then continues overland to the 13th century Mongolian capital site of Kharkhorin in Orkhon Valley, then south to the Gobi desert where our trip concludes. This ambitious, off-the-beaten-path quest will take us through some of the most diverse ecosystems of Mongolia. We will examine ancient burial sites, historical landmarks, Buddhist monasteries, nomadic families and paleontological localities with a series of interesting lectures provided by our national expedition leader. We will also have the opportunity to fish, trek and ride horses and camels while enjoying meeting local nomads along the way. The trip will conclude at the Gobi Desert, where great wide basins host dinosaur fossil valleys, sand dunes and rich flora and fauna.

Weather

Mongolia enjoys over 280 sunny days a year. However, because Mongolia has a continental weather pattern, weather can fluctuate drastically during any given day. We recommend packing warm clothes even if you are coming during the hottest months. Our pre-departure information will provide details regarding the weather along with a suggested packing list. Layering is the best plan to be ready for a wide array of Mongolian weather patterns.

Accommodation

Newly renovated Soviet era hotels are located at some of the best locations in downtown Ulaanbaatar. They offer comfortable rooms and friendly services. There are also newer hotels like Kempinski Khan Palace, Ramada Ulaanbaatar and Best Western Inn. The countryside accommodations are arranged in “ger camps,” which provide authentic nomadic felt tents with centralized bathroom and toilet facilities located nearby. They offer clean, comfortable beds and plentiful meals.

Safety

Mongolia is devoid of any political, religious and ethnic sectarian conflicts and is considered one of the safest countries in the world for international travelers. However, like in any other country, crimes do happen, so a good sense of caution and respect shown to the locals can help to avoid unnecessary confrontations. Mongolians are generally hospitable people who love to interact with foreigners.

Food

Mongolia’s capital, Ulaanbaatar, hosts an excellent collection of fine restaurants of international cuisine. In the countryside, tour establishments offer hearty meals with a balance of meat and vegetables. Meat in Mongolians excellent in that the whole country is essentially “free-range” terrain. Even your strictest dietary restrictions can now be met with proper information in advance and preparation by us.

Information about Currency and Payment Methods

Mongolia's national currency is called tugrik and the exchange rate is about 3,400 tugrik to a US dollar. Major currencies can be exchanged at the hotels and pawnshops, and ATM machines are widely available throughout Ulaanbaatar and provincial centers. However, Australian dollars can usually only be exchanged at banks. Traveler's checks can be cashed at banks and major credit cards are accepted at most places in the capital, but only Mongolian cash is accepted in the countryside. We recommend that you travel with Mongolian national currency equal to at least \$200 when touring in the countryside.

Souvenirs

Like any other places, Mongolia offers great souvenirs ranging from camel wool sweaters to cashmere scarves and traditional wooden puzzle games. Mongolian vodkas can be an excellent gift. At several stores, you can also find a range of traditional Mongolian musical instruments such as the famed Morin Khuur or "horse headed fiddle." Bargaining is not very customary; most items are sold for the price on their labels. If you plan to shop for souvenirs, we recommend purchasing locally as many items as possible since your purchases will be a direct contribution to the local community.

Travel Insurance

With Mongolia stretching over 1.5 million square kilometers and its population concentrated in the cities, we will be traveling through some remote areas away from good roads and medical facilities. We strongly recommend that you consider getting standard emergency medical evacuation insurance as a means to protect yourself from unexpected accidents that can happen during any trip. Nothing is better than traveling with peace of mind knowing that you have prepared for the trip as much as possible in advance

Traveling with Mongolia Quest

Because it is still a developing country, traveling in Mongolia requires a sense of humor and patience. New roads and bridges are being built every year, but the paved road system is still limited in the countryside. You may experience flight delays and find road conditions bumpy and dusty. But the experience of traveling in Mongolia will far exceed some personal compromises in comfort. We like to say that the best part of traveling in Mongolia is spontaneous events and interactions, which lead to unexpected interactions, discoveries, and experiences that will make your trip unique and memorable. At Mongolia Quest, we ensure the integrity of your overall itinerary but at the same time, will go out of our way to make necessary changes in order to enrich your travel experience with us.

ENJOY YOUR TRIP!
